### **Big Loose Parts Play in the Park**

**May 15<sup>th</sup> at 10 - 11:30 am**

Big loose Parts play combines gross motor muscle movement with problem solving and creativity. Big loose parts are made up of tires, boards, large pieces of rope, buckets, and a whole lot of other cool things. Children play with and combine the large parts to make wonderful creations.

## **WONDERING ABOUT YOUR CHILD'S DEVELOPMENT?**

**Ages 2 months to 60 months**

A developmental check-up will help you see if your child is developing typically with speech, language, social interactions and/or motor skills. **The Ages and Stages Questionnaire** can give you a guideline to tell if your child is doing what other children of the same age are typically doing. It is a great tool to know what activities you might try next and to see if additional support might be needed.
